Welcome! Thanks for becoming part of Centsible Treasures! Here's how the consignment process works:

- ◆ When you bring in your consignment items, we will select those we feel our customers want to buy. Unfortunately we do not have the space to accept every item; please understand that our experience and customer preferences guide what items we select.
- ◆ Our policy is to base prices on supply and demand. We will work to get you the best possible prices for your merchandise. You may collect your earnings 10 days after an item sells either in cash, check or store credit. We will mail out checks **upon request only**, for a fee of \$1.00. Earnings left in the store for over 1 year on a non-active account revert back to the store. **A one-time consignment processing fee of \$5.00** will be charged at the time you open your consignor account. By consigning with us, you also agree to include your items in special promotional sales or online sales.
- ◆ Select items can remain on consignment for up to two years, but please check back regularly to find out if anything sold, if anything needs to be returned to you or to discuss mark-downs. If there are any unsold items, you have the option of retrieving items by the end of the consignment period or they become the property of Centsible Treasures and may be included in clearance sales, bag sales or donated to charity. **We will prepare a list for you and ask that you call us at least 3 days in advance of the end of the consignment period if you intend to pick up your unsold items.** Please see table below for category details that explain the percent of the selling price you will receive for your items, the mark-down schedule and the time table to pick up your items
- ◆ Centsible Treasures promises to make every effort to safeguard your merchandise but we are not responsible for damage, loss or theft. We appreciate you becoming part of our family consignment store! We would not be in business without YOU!
